the BEST for recycling

- perfect for packaging pre-prepared meals
- ideal for microwave re-heating • from -20 °C to +100 °C
- durable & transport-safe for peace of mind

- made of pure polypropylene (PP)
- food-safe with zero impact on smell and taste
- outperforms PET alternatives

Ready-meal boxes

Samples

V0130

As equally as professional as our trays, and ideal for lower-volume meal providers who **care about presentation**. Once filled, fit the transparent leak-proof lid and you are good to go (even for home re-use). Available in two size variations, with depth and compartment options.

V0134

We eat with our eyes, and the transparent ready-meal bowl is perfect for **show-casing culinary delights**. These octagonal bowls are available in 1-, 2- or 3-compartment versions, and are a snap to use. Your diners can even remove the lid entirely, thanks to the perforated hinge, and still re-use it at home.
